WHERE POTENTIAL BLOSSOMS INTO GREATNESS

Educating Minds. Enriching Hearts. Empowering Futures.

17th August, 2026

An Epochal Day of Grace and Blessings

Gurudev Sri Sri Ravi Shankar Ji

Graced Sri Sri Academy, leaving behind moments of profound inspiration and cherished memories.

Vision

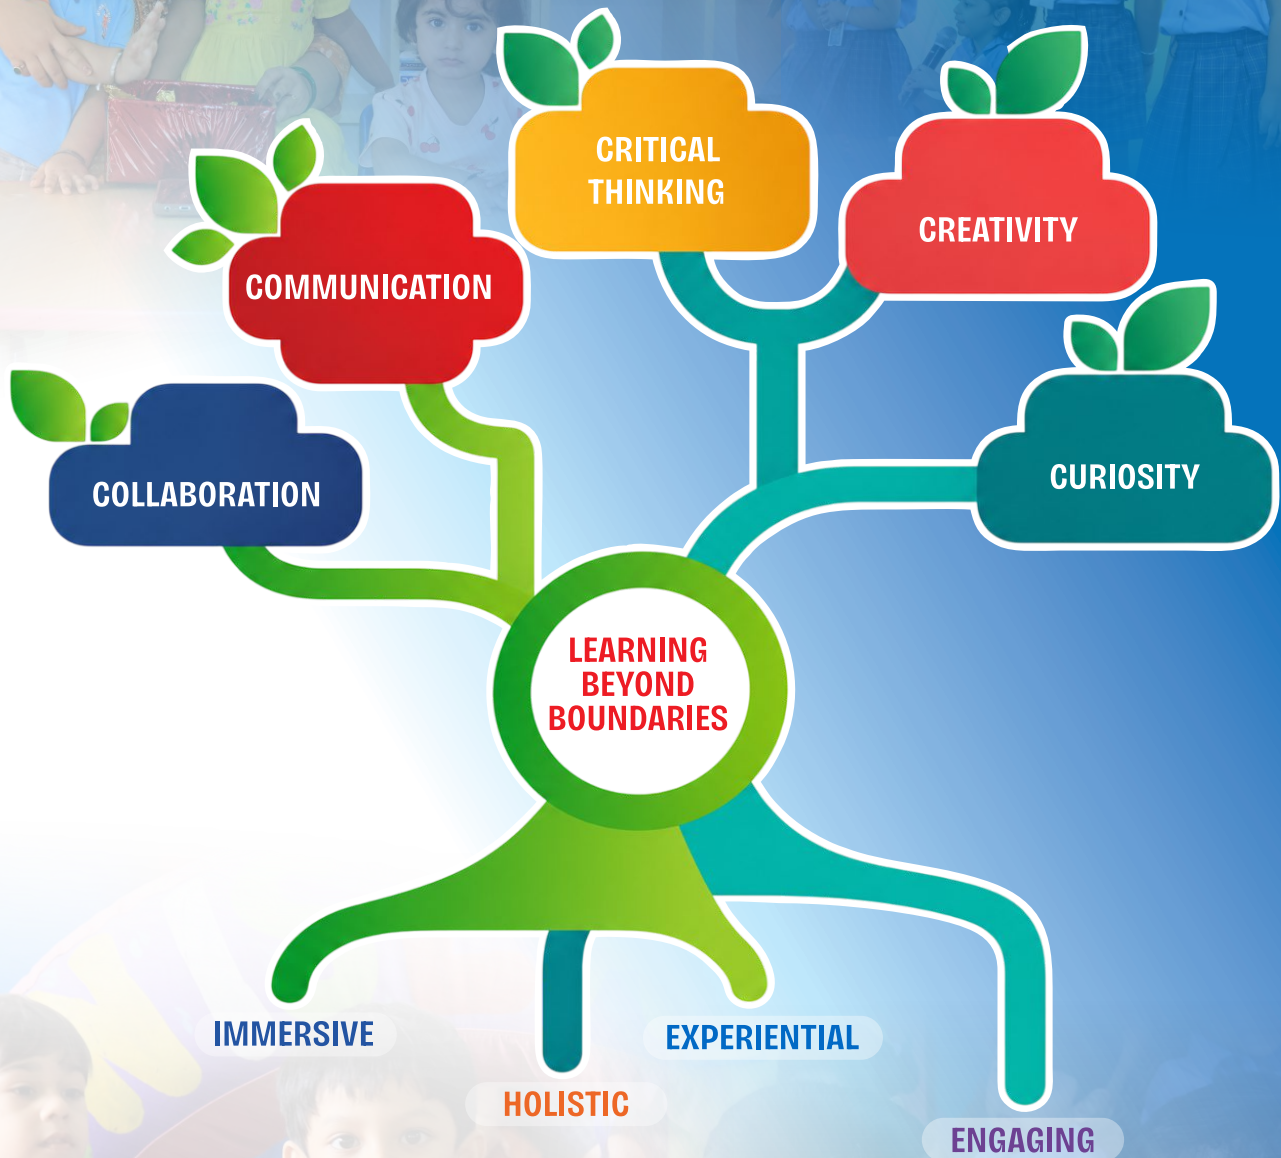

- To provide a joyful and enriching learning environment.
- To foster academic brilliance along with emotional and spiritual well-being.
- To encourage creativity, leadership, discipline, and critical thinking.
- To empower students to contribute positively to society and the world.

Mission

- To provide a joyful, value-based, and spiritually enriching environment that nurtures holistic development.
- To foster academic excellence alongside emotional intelligence, spiritual awareness, and inner well-being.
- To cultivate creativity, leadership, discipline, critical thinking, and a lifelong love for learning.
- To empower students to become compassionate, confident, and socially responsible global citizens.

DEEP ROOTS. DIVERSE SKILLS. CONFIDENT FUTURE

From the Chairman's Desk

Commodore H G Harsha

Chairman

Sri Sri Ravishankar
Vidya Mandir Trust

"Preparing Young Minds for a Changing World"

The true purpose of education is not to simply fill young minds with information, but to empower them with the clarity to think, the courage to act and the wisdom to choose what is right.

At Sri Sri Ravishankar Vidya Mandir, we believe that education must develop the complete individual, intellectually, emotionally, physically and spiritually. In a rapidly changing world shaped by technology, innovation and global interconnection, our children need more than academic competence. They need character, resilience, empathy, leadership and a sense of responsibility towards society and the nation.

We must educate a generation that does not merely ask, "What can I achieve?" but also, "What can I contribute?" That is the spirit of education we instil in this generation that is fearless in thought, disciplined in action, compassionate in spirit and visionary in purpose.

From the Chairman's Desk

Education is not merely about gaining knowledge. It is about nurturing curiosity, building character and giving young minds the confidence to create a better tomorrow.

At Sri Sri Academy, we believe that education is a journey that begins with wonder and gradually leads to wisdom. From the early years itself to the higher stages of learning, our endeavour is to provide every child an environment where they can think independently, learn with confidence, take responsibility and grow to their fullest potential.

Our philosophy, "Broaden the Vision, Deepen the Roots," reflects our belief that children must be prepared for a changing world while remaining firmly connected to strong values. Academic learning, technology, creativity, physical well-being, emotional intelligence and a sense of responsibility come together to make education a meaningful and enriching experience.

After all, it is the children we nurture today who will shape the future tomorrow.

Saroj Agarwal

Chairman
Sri Sri Academy

Abha Ohri

Vice-President,
Junior Sri Sri Academy

From the Vice President's Desk

Junior Sri Sri Academy is built on the belief that the essence of education lies in empowering children to recognize their enormous potential and that learning is a catalyst for drawing that out.

A home away from home, a place where every child is valued, loved, and encouraged to discover the joy of learning, where childhood is celebrated, curiosity is nurtured, and every little learner is given the confidence to shine.

We believe children learn best when they feel happy, safe, and free to explore. Through joyful play, creative experiences, purposeful learning, and meaningful interactions, we help children develop not only strong foundations for academics but also confidence, kindness, independence, and resilience.

Every child is unique and we celebrate individual strengths, encourage questions and give each child the freedom to grow and the confidence to shine. Our highly experienced and passionate educators create opportunities for each child to discover their interests, express themselves freely, and grow at their own pace. We aspire to cultivate globally minded young learners who are confident in themselves, respectful of others, and eager to embrace the world around them.

From the Desk of Our Visionary Leader

When Sri Sri Academy began its journey, it was more than just a foundation of a school - it was the beginning of a vision that I nurtured with immense belief, care and responsibility, much like raising a child from its very first step. Watching the institution grow over the years into a space filled with energy, learning and transformation has been deeply fulfilling.

Over the years, I have personally witnessed the remarkable journey of some students who came from ordinary academic backgrounds or struggled with confidence and then gradually transformed into school toppers, leaders and individuals with a strong sense of purpose. Moreover, our Intuition Program has given our students the opportunity to explore their inner potential in ways that conventional education often overlooks. These transformations remain our greatest achievement.

We have achieved many milestones, but I truly believe that our journey has just begun.

THE TEAM THAT NURTURES THE CITIZENS OF TOMORROW

OUR PROGRAMMES

MUNCHKINS (TODDLER) Age: 1 - 2 Years

The Toddler years are a time of exploration, discovery, and rapid development. Our nurturing educators help children settle into a structured environment where they build confidence, develop social skills, and learn the values of sharing, caring, and becoming independent. Through stories, rhymes, music, sensory play, and hands-on activities, children strengthen their lingual, cognitive, fine and gross motor skills. ,

MINIONS (PLAYGROUP) Age: 2 - 3 Years

At this stage, children are naturally curious, imaginative, and eager to explore. Our Playgroup programme channels this enthusiasm into meaningful learning through a theme-based curriculum that encourages creativity, confidence, and independent thinking. Children are introduced to early literacy through letter recognition, phonics, pre-writing patterns, and upper case letter formation. Engaging stories, rhymes, picture reading, and interactive activities help build vocabulary and communication skills.

NURSERY Age: 3 - 4 Years

Our Nursery programme nurtures confident, curious learners through a balanced, theme-based curriculum. Children learn to recognise and write alphabets, numbers and number names, while also being introduced to Hindi, Nepali, or Bengali as a second language. Hands-on exploration of integrated themes helps children understand the world around them while developing logical thinking, observation, and problem-solving skills. Art, craft, music, and experiential learning encourage creativity, self-expression, and confidence.

LKG (LOWER KINDERGARTEN) Age: 4 – 5 Years

Our LKG programme strengthens foundation in literacy, numeracy, and communication through an engaging curriculum. Children learn to read and write simple words and sentences using phonics, develop a strong understanding of numbers and logical thinking, and build language skills through stories, conversations, and creative expression. Hands-on learning across a variety of themes fosters curiosity, environmental awareness, and problem-solving skills.

UKG (UPPER KINDERGARTEN) Age: 5 – 6 Years

UKG is the final step in preparing children for a confident transition to formal schooling. Children become fluent readers and writers, develop strong mathematical concepts, and explore grammar and creative writing. Age-appropriate technology, including basic computer skills and an introduction to Artificial Intelligence enable our children to keep abreast with the world. Through projects and co-curricular activities such as art, music, dance, drama, and sports, children build creativity, leadership, collaboration, and problem-solving skills.

PLAY WITH YOUR HEART, NOT JUST YOUR FEET

Kinesthetic learning is a unique approach that allows children to learn through movement, physical activities, and purposeful play. Our thoughtfully designed play areas are equipped with international-standard play equipment that supports the overall physical development of every child. Through activities such as sliding, swinging, climbing, balancing, hopscotch, and many more, children strengthen their gross motor skills while learning important life skills like cooperation, problem-solving, and perseverance. Outdoor play encourages children to express themselves while developing a sense of teamwork and fair play. No wonder our Annual Sports Day is the most sought after event on the school calendar.

Imagine Today. Invent Tomorrow

LEARNING BEYOND THE CLASSROOM

Field trips are an integral part of our curriculum, providing children with meaningful opportunities to explore the world beyond the classroom. Visits to places such as farms, a post office, a science centre, a fire station, a supermarket, a park, a tea factory, a bakery, and places of religious worship, along with many other educational destinations, foster curiosity and develop observation, communication and social skills along with awareness of our surroundings.

BREATHE. BALANCE. BELIEVE

At our schools we lay great emphasis on a fully secure campus where parents are assured of their child's safety. All rooms and corridors are under CCTV surveillance. We also conduct regular Good Touch- Bad Touch sessions and emphasize on self awareness and personal safety through story telling and role play
